

Super sale and free enhancements on the SIGLENT SSA3000X!

September 30, 2019

Since its introduction into the market 3 years ago, the SIGLENT SSA3000X has grown to become an industry standard due to its excellent performance and value. The '3000Xs come equipped with a built-in preamplifier and achieve a -161 dBm/Hz displayed average noise level (Typ.) for excellent small signal measurement capability. The low noise figure (-98 dBc/Hz) and amplitude accuracy of <math><0.7\text{ dB}</math>, provide more accurate and reliable measurements than other models in its class.

Now, there is even more to be excited about!

We have lowered the price. You can get a SSA3032X at €2259 and SSA3021X at €1299 !

More than that, the latest firmware upgrade provides free 1 Hz RBW selection!

Most analyzers in this class stop at 10 Hz!

And we have added the tracking generator, a €169 option, at no charge!

We have expanded the functionality of an already popular product and lowered the price.

Order today and SAVE UP TO €909 !

The free 1Hz and TG option upgrade is a limited time offer, so you best hurry if you want to save money on this deal.
